- At the closure of *conférence d'entente nationale* people suggested negotiating with Ag Ghali and Mohamed Koufa. Both remain influential in northern and central Mali where jihadist groups continue to conduct frequent attacks on Malian, French, and MINUSMA forces. Though the idea of negotiations with both leaders made a significant noise, this remains almost an impossible idea to be accepted by any Malian and certainly little too late for talks option.
- [600 schools closed](#) in the Sahel Region in Burkina Faso due to increased threats and insecurity. After the French intervention in Mali January 2013 this region provided ideal fallback for members of jihadist groups that fled Mali. Little presence of security forces and relying on recruited local leaders facilitated the expansion of AQIM and allies.
- In the past month or so, Barkhane, Malian, and Burkina Faso forces conducted [operations](#) on the borders with Mali. This led to the destruction of what appeared to be an important logistical base to newly formed group, Ansaroul Islam, on 29-30 April 2017. At least 20 militants killed and important arms and explosives destroyed.
- In the absence of permanent presence of legitimate forces to protect local population in remote areas, we continue to see the emergence of small armed groups. For instance, [Fulani armed](#) group emerged near Ansongo claiming to be non-jihadist and non-separatist, and to recognize Malian State.
- [Reportedly](#), Ansaroul Islam operating in Burkina Faso and led by Ibrahim Dicko plans to pledge allegiance to so-called Islamic State. While existing ties between members of Ansaroul Islam and Adnane Abu Walid al-Sahraoui indicate as this to be a possibility, it's unlikely to have a major impact at the operational level.
- CJA announced on 20 APR 17 to abandon checkpoint controlled west of Timbuktu to the Malian Army. CJA controlled the checkpoint since early March while protesting against the terms of interim authorities implementation in Timbuktu and Taoudeni Regions.
- JNIM distributed leaflets at Zouera, Timbuktu Region telling CJA are not the target but they should not provide any type support to French, MINUSMA, and Malian forces.
- In response to increased armed robberies around Bourem and Gao Region in general, local authorities in Bourem on 30 April announced [banning circulation](#) of motorcycles at the Bourem Circle until 21 May. Movement of people is likely to be reduced and limited, and thus affect the livelihood of many families and further deteriorate humanitarian conditions in the area.

- Sahel MeMo recorded at least 38 violent incidents with violent extremist organizations involvement.
- Jama'at Nusrat al-Islam wal Muslimeen (JNIM) through its media arm az-Zallaqa officially claimed 12 attacks in northern and central Mali.
- MINUSMA camps, logistical convoys, and vehicles were targeted 10 times out of 38 violent incidents in April 2017 by improvised explosive devices (IEDs) and rockets.
- Barkhane forces were involved or attacked 7 times in April 2017 out of the 38 violent incidents.
- Malian forces were involved or attacked 9 times in April 2017 out of the 38 violent incidents.
- Armed groups and militias were involved or attacked 4 times in April 2017 out of 38 violent incidents.
- Civilians were affected in 5 attacks out of the 38 violent incidents in April 2017.
- Sahel MeMo recorded at least 19 armed robbery that mainly took place in central and northern Mali.
- In April 2017 Sahel MeMo recorded: 6 Malian members of security forces killed and 1 injured; 1 French soldier killed and 2 injured; 1 peacekeeper killed and 4 injured; 2 civilians killed and 2 injured; 14 militia and armed groups members killed and 6 injured.
- Non-government organizations (NGOs), humanitarian, and civil society organizations were attacked at least 9 times in April 2017 in northern and central regions. This is a major concern going forward while trying to assist vulnerable population.

- **JNIM:** Jama'at Nusrat al-Islam wal Muslimeen
- **AQIM:** Al-Qaeda in the Islamic Maghreb
- **MINUSMA:** United Nations Multidimensional Integrated Stabilization Mission in Mali
- **CMA:** Coordination for the Movement of Azawad
- **GATIA:** Self-Defense Imghad Tuareg Group and Allies
- **MNLA:** National Movement for the Liberation of the Azawad
- **MAA:** Arab Movement of Azawad
- **CJA:** Congress of Justice in Azawad

Agadez : Un groupe de narcotrafiquants intercepté et mis en déroute
Un accrochage a eu lieu ce matin à l'est d'Agadez, précisément à une quarantaine de kilomètres vers le site dénommé Ighayen, à quelques encablures de la falaise de Tiguidit, dans la commune d'Aderbissinat. D'après une source sécuritaire contactée par Air Info, c'est un convoi de onze véhicules 4x4 bourrés de drogue qui venait probablement du nord Mali et qui se dirigerait vers le Tchad ou la Libye qui a été intercepté par l'équipe de Amoumane Kalakouwa avec en renfort les agents de la garde nationale d'Agadez. Après des lourds combats, on a enregistré un mort dans les rangs des trafiquants et un véhicule détruit. D'après d'autres sources fiables, des blessés ont été acheminés à Agadez.
Nous y reviendrons !
